HUD Standards for Success Data Elements

Presented by Kristin Kuipers, Executive Director, Pangea Foundation
Sponsored by Pangea Foundation

Wednesday, July 29, 2020, 1:00 - 2:30 pm, $35
1.5 Continuing Education Units

This course will review HUD's new reporting framework that is required for all Multi-Family Service Coordinator Programs (Grant and Budget Based) as well as ROSS grants. This course will give an overview of all existing data elements, as well as new ones HUD plans to add. It will explain how to answer each question regardless of which case management system or reporting system a property uses for the new report.

Level: Beginner
Track: Elderly/Disabled Populations, Family & Youth Populations, Supervisory/Management
Format: Lecture
HUD Core Area: Basics of Documentation (Required Ongoing Training Area)

Kristin Kuipers is the Founder of Pangea Foundation. Formed in 1996, Pangea Foundation helps nonprofits leverage technology to manage their programs. With an extensive background in public policy, Kristin has forged collaborative partnerships among nonprofit and government leaders that have been instrumental in helping address some of the most pressing needs in America’s communities. Pangea works with over 5,000 affordable and public housing properties across the country, leveraging technology to more effectively serve residents, as well as report data driven results to government agencies.
