

Using FamilyMetrics for the HUD SfS Report

Presented by Jill Chance, Client Support Engineer, Pangea Foundation

Sponsored by Pangea Foundation

Thursday, July 16, 2020, 1:00 - 2:00 pm, \$35, 1 Continuing Education Unit

This session will show attendees how Resident Service Coordinators can use the FamilyMetrics software to compile data for their HUD Standards for Success report. It will show how this is done at the resident level, and how items such as services and programs feed into the overall resident service counts for the report. It will also show property wide tools to review and QA data before it is submitted. Finally, this session will demonstrate how to submit the report when it is due in October.

Level: Beginner

Track: Family/Youth Populations

Format: Lecture

HUD Core Area: Basics of Documentation (Required Ongoing Training Area)

Jill Chance serves as a Client Support Engineer with Pangea Foundation. In this capacity, she oversees all custom work, including HUD's Standards for Success Report.
